SmallPod Bluetooth

Stylish wireless active speaker system

The addition of Bluetooth wireless connectivity makes the SmallPod Bluetooth speaker one of the most versatile in the Podspeakers range.

By simply 'pairing' the SmallPod Bluetooth speakers with any Bluetooth-enabled device, such as a smartphone, PC or tablet, music can be wirelessly 'streamed' for added convenience at no loss of quality.

As Bluetooth technology is compatible with most mobile devices, there is plenty of flexibility when upgrading, so users are not limited to a particular brand.

Use it with:

Smartphones
iPod
iPad
iPhone
Tablets
PC
MAC
TV
